

John Pieris

SOFTWARE ENGINEER · FULL STACK DEVELOPER

☎ (+30) 694-7528-072 | ✉ piergiannis@hotmail.com | 📱 p1erhs

Education

Aristotle University of Thessaloniki

Thessaloniki, Greece

BSc IN COMPUTER SCIENCE

Jan. 2018 - Present

- Member of the ACM AUTH student chapter
- Member of the ACM Information Security team

Skills

Programming

EXPERIENCED IN:

- HTML, CSS, Javascript, Django
- Java
- Python
- Bash
- MySQL, SQLite
- Git, Heroku

FAMILIAR WITH:

- Node.js
- Docker
- PHP
- C, C++
- Matlab
- Android Development

Networks

STRONG UNDERSTANDING OF:

- TCP/IP Stack
- HTTP protocol and Requests
- TCP/UDP protocols
- IP protocol
- SSL/TLS protocol

Other Fields

TOPICS I HAVE INVESTED TIME STUDYING:

- Cryptography (Symmetric/Public-key)
- Systems Architecture

Operating Systems

COMFORTABLE WORKING WITH:

- Linux
- Windows

Soft Skills

MY DRIVING FORCES:

- Initiative
- Confidence
- Adaptability
- Self-motivation
- Teamwork

Languages

ABLE TO COMMUNICATE IN:

- English
- Greek

Activities

ACM Information Security Team

EXPANDING MY GENERAL UNDERSTANDING OF THE WEB

2020 - 2021

- Participated various presentations regarding Web architecture and security
- Competed in Capture The Flag events with a focus on Web Security
- Obtained a basic understanding of penetration testing and secure coding practices mindset

ACM Web Development Team

FIRST INTERACTIONS WITH FULL-STACK DEVELOPMENT

2019 - 2020

- Took part in the development of web applications while collaborating with other students and working professionals
- Got introduced to various web frameworks and technologies
- Acquired an increasing interest for professional full-stack development and software engineering
